SITE 13

SARY SHAGAN AMM TEST CENTER, USSR

1. THIS FACILITY WAS FIRST IDENTIFIED ON [REDACTED] AND SUBSEQUENTLY COVERED BY EIGHTEEN KH MISSIONS. INSTALLATIONS HAVING SIMILARITIES TO THIS FACILITY WERE OBSERVED AT ANGARSK [REDACTED] AND OLENOGORSK [REDACTED]
2. [REDACTED] REVEALED A TRIAD OF BUILDINGS SIMILAR IN CONFIGURATION TO THOSE AT SARY SHAGAN LAUNCH COMPLEX B AND INSTRUMENTATION SITE 10.
3. [REDACTED] REVEALED CONTINUING CONSTRUCTION ON BUILDING TRIAD.
4. [REDACTED] REVEALED EARTH SCARRING NORTH OF THE BUILDING TRIAD.
5. [REDACTED] REVEALED THAT CONSTRUCTION ACTIVITY WAS CONTINUING AT THE BUILDING TRIAD AND AT THE AREA OF EARTH SCARRING.
6. [REDACTED] REVEALED THAT THE PREVIOUSLY REPORTED UNIDENTIFIED ACTIVITY LOCATED NORTH OF THE TRIAD OF BUILDINGS CONSISTS OF TWO

ALIGNED RECTANGULAR EXCAVATIONS MEASURING 2300 X 100 FT EACH. A STRUCTURE, 210 X 190 FT, HAS BEEN CONSTRUCTED APPROXIMATELY 1000 FT FROM THE END AND ALONG THE EAST EDGE OF THE NORTH EXCAVATION. FOUR POSSIBLE FOUNDATIONS FOR ADDITIONAL STRUCTURES HAVE BEEN ADDED TO THE SUPPORT AREA JUST NORTHEAST OF THE SITE.

7. [ ] REVEALED CONTINUING CONSTRUCTION ON THE LINEAR EXCAVATIONS. THE FOUR BUILDINGS PREVIOUSLY IDENTIFIED AT THE NORTHEAST SUPPORT AREA APPEAR TO BE COMPLETE ON THE EXTERIOR. THREE ADDITIONAL BUILDING FOUNDATIONS WAS OBSERVED.
8. [ ] REVEALED NO SIGNIFICANT CHANGE AS CONSTRUCTION CONTINUES.
9. [ ] REVEALED AN ADDITIONAL PROBABLE LINEAR SITE UNDER INITIAL DEVELOPMENT 2200 FT FROM THE NORTH SITE. CONSIDERABLE DEVELOPMENT AND CONSTRUCTION IS CONTINUING AT THE SUPPORT AREA, THE TRIAD OF BUILDINGS AND AT THE PREVIOUSLY REPORTED LINEAR EXCAVATIONS.
10. [ ] REVEALED THE THREE LINEAR EXCAVATIONS TO BE THREE DUAL HEN HOUSE-TYPE ANTENNAS IN VARIOUS STAGES OF CONSTRUCTION, EACH SEPARATED BY A CONTROL BUILDING.
11. [ ] REVEALED CONTINUING CONSTRUCTION ACTIVITY IN ALL VISIBLE AREAS OF THE FACILITY.

Page 5

12. THIS MISSION REVEALS ON VERY GOOD STEREOSCOPIC COVERAGE CONSIDERABLE PROGRESS AT THE THREE DUAL HEN HOUSE-TYPE STRUCTURES. THE NORTHERN LINEAR BUILDING OF THE CENTRAL STRUCTURE, WITH THE ANTENNA FACE DARK IN TONE AND FACING WESTWARD, APPEARS COMPLETE. ROOFING REMAINS TO BE ACCOMPLISHED ON THE SOUTHERN LINEAR BUILDING. THE ANTENNA FACE IS GRAY IN TONE AND ALSO FACES WESTWARD ALTHOUGH THE EXACT PITCH OF THE BUILDING CANNOT BE ASCERTAINED UNTIL IT IS COMPLETED. THE PROBABLE CENTRAL CONTROL BUILDING SEEMS TO BE COMPLETE OR ALMOST COMPLETE.

AT THE SOUTHERN SITE FOOTINGS ARE OBSERVED IN BOTH LINEAR EXCAVATIONS. APPENDAGES (85 X 55 FT) HAVE BEEN CONSTRUCTED AT THE NORTHERN AND SOUTHERN EXTREMITIES OF THE STRUCTURE. THE PROBABLE CENTRAL CONTROL BUILDING IS IN A RELATIVELY ADVANCED STAGE OF EXTERNAL CONSTRUCTION.

AT THE NORTHERN SITE, PREVIOUSLY OBSERVED ON [REDACTED] EXCAVATION HAS CONTINUED THROUGHOUT ITS ENTIRE LENGTH AND POSSIBLE FOOTINGS OR EXCAVATIONS FOR FOOTINGS ARE NOW OBSERVED IN THE NORTHERN PORTION. SMALL EXCAVATIONS, PROBABLY FOR APPENDAGES SIMILAR TO THOSE FOUND AT THE OTHER TWO STRUCTURES, CAN BE SEEN AT EACH EXTREMITY. THE CENTRAL CONTROL BUILDING IS IN INITIAL STAGES OF CONSTRUCTION.

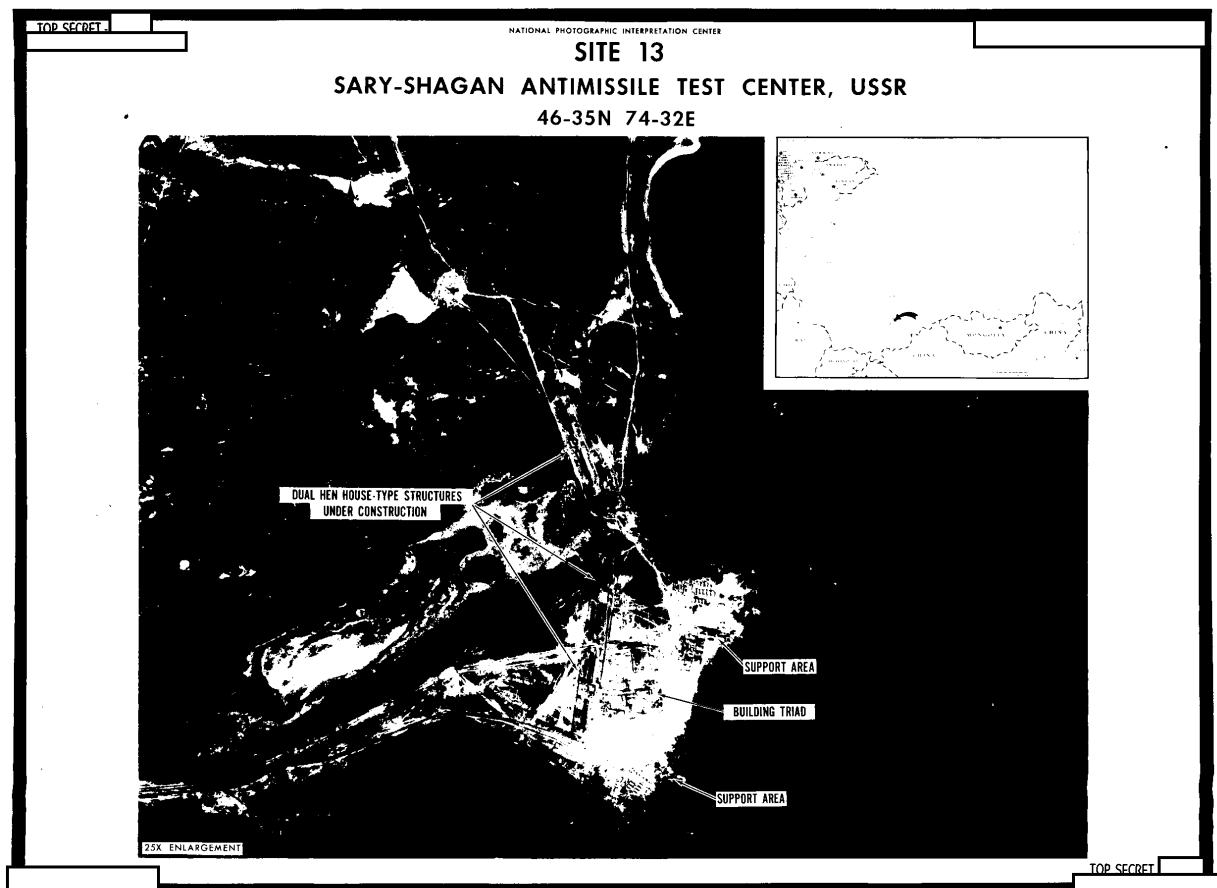

TOP SECRET

Page 6

THE MAJOR PORTION OF THIS BUILDING LIES TO THE WEST OF THE LINEAR EXCAVATION IN CONTRAST TO THE OTHER TWO STRUCTURES WHERE THE MAJOR PORTION OF THE CENTRAL CONTROL BUILDING LIES TO THE EAST. APPROXIMATELY 1400 FT NNW OF THE STRUCTURE IS AN UNIDENTIFIED BUILDING UNDER CONSTRUCTION.

A PROBABLE WATER TOWER IS LOCATED JUST EAST OF THE CENTRAL DUAL HEN HOUSE-TYPE STRUCTURE AND NUMEROUS GROUND SCARS ARE OBSERVED NEAR THE LINEAR STRUCTURES AND THE BUILDING TRIAD, SOME OF WHICH ARE PROBABLY WATER PIPELINES. SINCE JUL 64 ONE NEW BARRACKS-TYPE BUILDING HAS BEEN ERECTED IN THE NORTH SUPPORT AREA AND ANOTHER ONE IS CURRENTLY UNDER CONSTRUCTION. A LONG CONTINUOUS SCAR WHICH ENCOMPASSES THE BUILDING TRIAD, THE AREA OF THE THREE DUAL HEN HOUSE-TYPE STRUCTURES AND AN AREA NORTH-NORTHWEST OF THE NORTHERN SITE WHICH IS APPROXIMATELY 2500 FEET IN LENGTH, IS ALSO NEWLY OBSERVED.
